EXPERIENCE

Replenishment Specialist

March 2023 – July 2026

Crestview, FL

- Utilized handheld inventory management systems (ChainTrack and Publix Pro) to maintain inventory accuracy, track product movement, and support daily operational workflows.
- Worked in a fast-paced environment while completing a Bachelor's degree in Information Technology and Full-Stack Software Engineering training through Code Platoon

Battalion Operations & Training Systems Supervisor

August 2018 – August 2021

United States Army | Fort Drum, NY

- **Digital Training Management System (DTMS) Administrator:** Managed training records and readiness data for 850+ personnel, trained 12 company DTMS administrators, reduced reporting discrepancies by 51%, and increased battalion compliance metrics by 31% through standardized reporting and data validation.
- **Battle NCO:** Coordinated operational reporting, maintained mission tracking information, ensured continuity of digital communications between shifts, and prepared reports used by higher headquarters for operational decision-making.
- **Battalion Digital Master Gunner:** Served as the primary administrator for mission command systems including CPOF and digital training platforms, providing system configuration, technical troubleshooting, user support, and operator training across multiple companies while ensuring operational data accuracy for higher headquarters.

Company Operations & Training Systems Supervisor

July 2015 – July 2018

United States Army | Fort Hood, NY

- **Deployment Systems Coordinator (TCAIMS II / ALPS):** Managed deployment planning using TCAIMS II and ALPS, validating equipment records, transportation requirements, aircraft load plans, and deployment documentation supporting both Hurricane Harvey relief operations and overseas deployment.
